Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted Applicants' representative to suggest that the limitation of claim 160 be incorporated into independent claims 138, 155, and 158 in an effort to advance the prosecution. Applicants proposed amending limitation of claim 160 to further recite "DYNAMICALLY prioritizing expanding or CONTRACTING synergistic concentric circles of a search result" into the above mentioned independent claims. Further, Examiner requested that the phrase "computer implemented" be added to claim 138 in order to ascertain that the method is tied to a technological art. Also, the occurrences of the word "adapted" from claim 155 will be removed so that the claim would recite a positive limitation. Applicants' representative agreed to do so and authorized the Examiner to make the above changes via an Examiner's amendment.
